

ACTIVITY

Your Conservation Action Plan

Look around your home and neighborhood and identify three ways people can save energy and three ways they can save water at home or at school. List your conservation tips here:

Energy-Saving Tips:

1. _____
2. _____
3. _____

Water-Saving Tips:

1. _____
2. _____
3. _____

1. Pick one water-saving tip and one energy-saving tip to share with the people in your household or your class. List these tips in the first column below.
2. Find at least one person who will commit to follow each of your tips. Write the name(s) of who you shared each tip with in the second column.
3. Pick one water-saving or energy-saving tip and design a radio ad or a social media post to promote it.

Bonus: Post your ad on social media and tag it #JEA.
